

## You will need

Two sheets of A4 card  
Glue - PVA or a glue stick  
Scissors  
Coloured pencils

## Instructions

1. Colour in the template.
2. If the template wasn't printed onto card, glue it onto a piece of card and leave it to dry.
3. Cut out the roof, porch and walls of the house along the solid lines.
4. Glue tab A behind B to make a circle. Cut along the solid line of the door and open it outwards.
5. Take the roof and cut along the solid line. Put a little glue along edge C and glue it behind D to make a cone. Check that it fits on the walls first.
6. Take the porch and fold inward along the dashed lines. Put glue on the tabs and stick it around the outside of the door.
7. Use a paper clip to hold edges together while they dry.
8. Create a 'settlement' with everyone else's round-houses.

What materials is your house made of?

List them and create a colour chart to remind you what to use when you colour in.

e.g daub, wattle, straw, bracken, heather?

How it will look...

# Make a round house settlement
