

On an A3 page in pairs or groups answer the checklist questions. You can use the notes 'How Linen was produced' or any other resources to find the information you need. You could even cut out these pictures!

What methods were used to harvest flax in the past?

What methods are used to harvest flax today?

Why is the process of pulling so important when harvesting flax?

How is water used in the production process?

What are the main stages in the production of linen from flax?

What kinds of machinery are used to produce linen?

*Include a balance of text, diagrams, images and drawings.*
