

What is an insect ?

Insects are minibeasts that have 3 pairs of jointed legs and 3 body parts called the **HEAD, THORAX** and **ABDOMEN**. The head has a pair of feelers or **ANTENNAE** to smell and feel with. Insects also have 2 large **COMPOUND** eyes that are made up of thousands of tiny eyes. The main body is split into two pieces the thorax, joined to the head, and the abdomen.

Can you label this insect ?

Can you circle the minibeasts that are not insects?
