

We use our five senses to enjoy plants

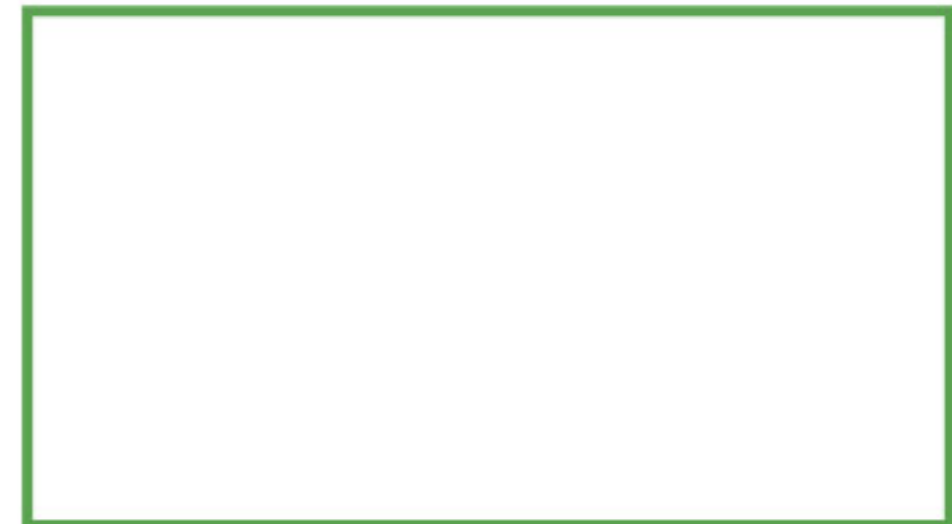

Listen to the trees in the wind. Write down what you heard.

Draw a beautiful plant.

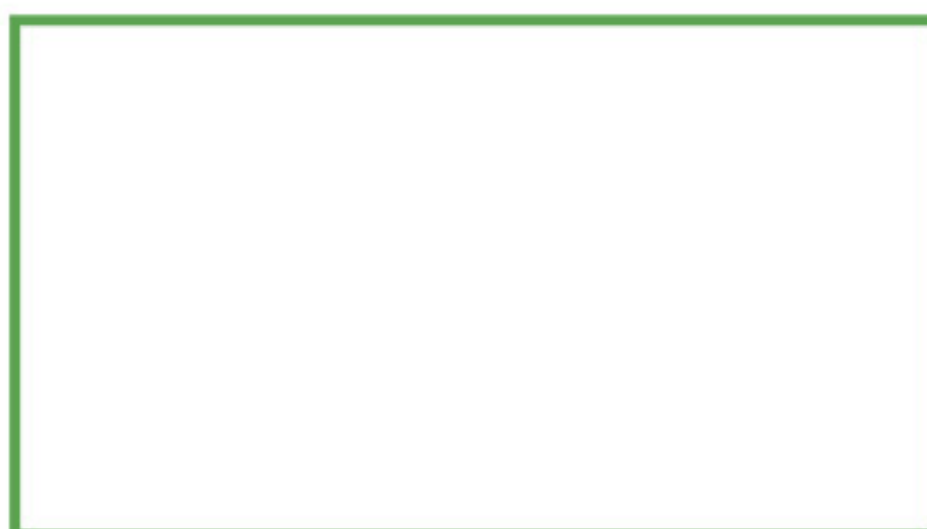

Draw an ugly plant.

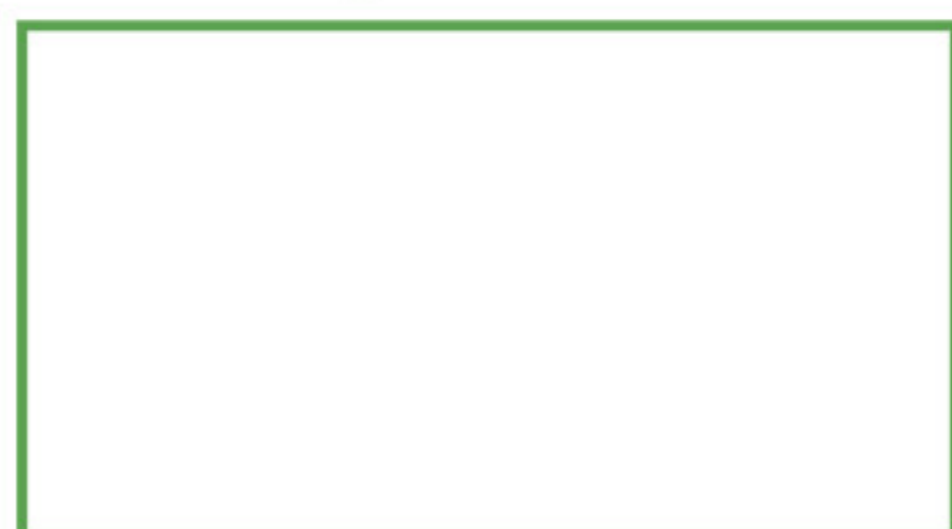

We can taste some plants when we eat them. Write or draw the kinds of fruit and vegetables you like to eat.

Some plants have a strong smell. Draw and name a plant that:
smells nice

smells unpleasant

Collect some leaves and feel them. Sort them and draw them.

Rough

Smooth

Prickly
