

Choose two leaves from the same tree. Trace the outline of each leaf in the squares below.

Leaf 1

Leaf 2

Which tree did the leaves come from? _____

What is the length of leaf 1? _____ Leaf 2? _____

What is the width of leaf 1? _____ Leaf 2? _____

In what other ways are the leaves different?

Now trace your leaves onto squared paper. Work out the area for each leaf. Which is bigger?
